**FAQ: What is the difference between the business address and the mailing address?**

For many applicants the two addresses are the same. While an applicant may have many business addresses, it can have only one mailing address. The mailing address is referred to in statute as the "address of record". This is the address where the ROC will mail correspondence regarding this license. Failure to appropriately respond to this correspondence could negatively impact the applicant's right to work as a contractor with this and any other ROC license. Two common examples of correspondence the ROC might mail are (1) notices about license renewals, and (2) notices about complaints. Failure to properly respond to these notices may result in discipline of a license.

**9. Phone Number**

This is the phone number of the applicant.

**10. Email**

This is the email address of the applicant. If the applicant does not have an email address, write "None".

**11. EmailNotification**

Checking this box indicates that you would like to receive an email notifying you when your license is due for renewal.

**12. Workers' Compensation**

Arizona Revised Statute Title 23, Chapter 6 governs workers' compensation. Check the box that indicates how the applicant will comply with the Workers' Compensation Act.

Attach to your application proof of how the applicant will comply with the Workers' Compensation Act. Such as:

- A copy of the certificate or insurance statement, including the policy number, or
- The affidavit of self-employment exemption.

If the qualifying party is NOT an owner, a partner, a member or manager of an LLC or an officer or director of a Corporation, he/she is an employee. You MUST provide a copy of the workers' compensation insurance.

The owner, a partner, a manager or member, or an officer or director must certify compliance with workers' compensation by printing their name, title and signing.

## **Application Part 2: Cancellation of Existing ROC License(s) Upon Issuance of New License**

### **13. Cancellation of License(s) Upon Issuance of New License(s)**

Generally the application for a new license does not require the cancellation of existing ROC licenses. This Part will commonly be used for applicants with a qualifying party who is also the qualifying party for one or more existing ROC licenses. A.R.S. § 32-1127 sets forth the requirements that must be met for an individual to act as a qualifying party for more than one license. This statute also limits a qualifying party to two licenses.

Space is provided to request the cancellation of two licenses. Only an authorized signer of the license being cancelled can request the cancellation of a license (i.e. the owner of a sole proprietorship, a partner of a Partnership, an officer of a Corporation, or a member or manager of a Limited Liability Company).

## **Application Part 3: Personnel Information (Qualifying Party)**

## **Application Part 4: Personnel Information (All Other Persons or Entities, Not Qualifying Party)**

These instructions apply to the personnel information for questions 14-27 of Part 3 for Qualifying Party's and Part 4 for All Other Persons or Entities, who are not the Qualifying Party's.

The Part 3, Personnel Information (Qualifying Party) form should only be completed by qualifying individuals. Each applicant will have only one Qualifying Party. The Qualifying Party is the “responsible managing employee” or “qualifying party” described in A.R.S. § 32-1127. The Qualifying Party is the individual who has the requisite experience and has taken and passed the required trade and business management exam(s).

The Part 4, Personnel Information (All Other Persons or Entities, Not Qualifying Party) form should be completed by all individuals and business entities having an ownership or management interest in the applicant. For example, where the applicant is an Arizona Limited Liability Company, a form should be completed by all persons listed with the Limited Liability Company at the Corporation Commission. Additionally, if the applicant has ownership that is held by a Parent/Partner entity such as another Limited Liability Company, a lawful representative of that Parent/Partner entity must fill out the Part 4 form on behalf of the Parent/Partner entity. Also please include a copy of all applicable documents listed in Section 1, Question 4 (e.g. Articles of Organization, Articles of Incorporation, etc.) for the Parent/Partner entity. Each person and business entity should fill out its own form.

- For individuals, questions 14-27 must be correctly and fully completed as instructed in the line-by-line instructions.
- For business entities, questions 14-27 must be correctly and fully completed as instructed in the line-by-line instructions and as appropriate. Where a question applies only to an individual (e.g. middle name) and not a business entity, and also where not otherwise instructed, write “NA”.

**14. Name (First, Middle, Last)**

The complete legal first, middle and last names are required. If the individual has no middle name, write "None". If the individual only has a middle initial, write "Only" after the initial.

If ownership is held by a Limited Liability Company, Corporation, or Partnership, write the full legal name of the business entity.

Please include a copy of your social security card with the application. The ROC will not use social security numbers in an unauthorized manner.

If ownership is held by a Limited Liability Company, Corporation, or Partnership, write the Tax Identification Number.

**18. Residential Address**

Write the complete residential address, including city, state and zip code.

If ownership is held by a Limited Liability Company, Corporation, or Partnership, the mailing address may be used in lieu of a residential address.

Check yes or no. If yes, attach complete copies of the petition(s), docket report(s), all schedules and statements including Schedules E and F, the discharge order(s), and confirmed plans where applicable. *I understand that filing for bankruptcy is not grounds for the denial, suspension, or revocation of a contractor's license.*

The criminal background check is available at [http://www.azroc.gov/1\\_Background.html](http://www.azroc.gov/1_Background.html). This background check must be submitted 4-60 days prior to submitting this license application. You must include a copy of your background check receipt with your license application.

**26. Have you ever been convicted of a felony or a misdemeanor, or currently have a felony charge pending?**

Check yes or no. If yes, describe when, what the charge or conviction was, and the name of the court in the space provided. (Use additional paper if needed.) Please provide any additional information about your charges or convictions that you would like the ROC to consider. For example, you may want to submit information showing rehabilitation. Examples of rehabilitation: counseling, gainful employment, passage of time without additional or repeat violations, completion of an appropriate rehabilitation program, an order vacating (setting aside) a conviction. This is often referred to as expungement. Providing evidence of rehabilitation will help the ROC decide whether to deny this application based on these charges or convictions.

**Note: Even though a conviction has been vacated, pardoned, expunged, dismissed, appealed, listed as undesignated or otherwise reduced or your civil rights have been restored, you are required to answer "YES."**

7. The account number or certificate number on the assignment must correspond exactly to the number shown on the certificate of deposit.
8. Investment earnings are payable to the person designated by the depositor. The Registrar of Contractors does not have a claim on interest earnings except in the event that earned but unpaid interest is applied against an early withdrawal penalty upon payment to an injured party (by court order) pursuant to A.R.S. §32-1152.

## Section 4: Wavier of Trade Examination

The Arizona Registrar of Contractor's may waive trade examinations for contractors licensed in another state in any category and classification equivalent to those of Arizona.

### **To be Eligible:**

1. The applicant/qualifier shall have taken and passed an equivalent trade exam that led to the approval of a contractor's license.
2. The contractor's license must have been active and in good standing within the preceding five years.
3. The exam content and the license classification must be equivalent to the Arizona exam and license for which the exam waiver is being requested.

\* The Business Management exam cannot be waived because it has reference to Arizona specific statutes and rules.

\*\* The ROC cannot waive the Arizona Department of Water Resources Trade Examination required for the A-4, A-16, C-53, and R-53 license classifications.

### **Information to Submit with the Application:**

1. A description of the scope of license classification from the jurisdiction where the trade exam was taken.
2. Proof of the passing tests results.  
If you can't obtain proof of the passing test results, you may substitute a completed Trade Exam Verification Form.
3. A description of the exam content from the exam provider.
4. Proof of the license status and history from the other jurisdiction (e.g. state, county, city).
5. Sign and date the application (must be signed by the qualifying party seeking the waiver.)

## Section 5: Additional Requirements for Commercial, Dual, Swimming Pool and Solar Licenses

### Part 1: Commercial, Dual and Swimming Pool Licenses (Statement of Financial Condition)

Pursuant to A.R.S. § 32-1122, to obtain a contractor's license, other than a residential contractor's license, the applicant shall submit a detailed statement of current financial condition containing information required by the registrar of contractors on a form furnished by or acceptable to the registrar of contractors. Notwithstanding any other law, a swimming pool contractor shall also submit a detailed statement of current financial condition as required by this subsection.

The statement of financial condition can be met by either:

- a. Completing the financial statement in the application. Do not include dividers, folders, books, bound documents, etc., or
- b. Submitting audited and signed financial statements prepared by a CPA.

### Part 2: Solar Licenses (Solar Energy Device Warranty)

Pursuant to A.R.S. § 44-1762, those who manufacture, furnish for installation, or install a solar energy device are required to provide consumers a written statement of (1) warranty, (2) responsibilities assumed or disclaimed and (3) performance data of the solar energy device and its components. The form of this statement is subject to approval by the Registrar of Contractors and a copy of the approved statement is to be kept on public file with the agency. Below are sample warranties.

#### Sample Solar Plumbing Warranty Statement

To: Solar (type of system) owner at (address)

From: (installation company)

Date: (date of installation)

RE: Solar (type of system) certification requirements

The warranty requirements for the "supplier" will stand as written as defined in the current (at time of sale) system test/certification documents (SRCC OG-300, OG-400, or equal).

The warranty requirements for the installation company will be as follows (this warranty supersedes all other warranties for the time periods stated):

- a). The installation company will provide a full parts and labor warranty for the entire system for two (2) years from date of installation.

Full parts and labor warranty includes, but is not limited to, any and all component failure(s), whether it is covered by the original manufacturer or not; any and all installation-related malfunction(s); any and all high-temperature problem(s) including those related to water quality. Any manufacturer's warranty (ies) are in addition to, not in lieu of, the installation warranty. Warranty is not required to cover problems resulting from exposure to harmful materials and chemicals, fire, flood, lightning, hurricane, tornado, hailstorm, earthquake, or other acts of God, vandalism, alteration of system by anyone not authorized by the installation company, or any other cause beyond the control of the installation company.

- b.) The installation company will provide a full parts and labor warranty against any and all freeze-damaged component(s) for five (5) years. This includes freeze damage due to water quality problems and component failures.

Note 1: Ambient temperatures below 4 degrees C (39 degrees F) can cause freeze damage to solar collectors, transport pipe and other system components. These cold temperatures and freezing conditions are common throughout the state of Arizona and are not considered an act of God. All freeze damaged system components are subject to the freeze warranty as specified above.

Note 2: The freeze protection on some system types can be accidentally disabled by the user. Since this condition is intrinsic in the system design, and therefore can be predicted, freeze damage due to accidental disabling by the user is not cause for indemnification of the installing company. The installation company is specifically responsible for any freeze damage due to accidental disabling of the freeze protection.

Note 3: The freeze protection on some system types can be rendered less effective or completely useless due to electric power failures at the system site. Since this condition is intrinsic in the system design, freeze damage due to lack of electric power at the system site is not cause for indemnification of the installing

company. The installing company is specifically responsible for any damage due to electric power failure at the system site.

Full parts and labor warranty includes, but is not limited to, any and all component failure(s), whether it is covered by the original manufacturer or not, and any and all installation-related malfunction(s). Any manufacturer's warranty(ies) are in addition to, not in lieu of, the installation warranty. Warranty is not required to cover problems resulting from exposure to harmful materials and chemical, fire, flood, lightning, hurricane, tornado, hailstorm, earthquake, or other acts of God, vandalism, alteration of system by anyone not authorized by the installation company, or any other cause beyond the control of the installation company.

## Section 6: Fees

The fees for a contractor's license depend on the license classification for which you are applying. The appropriate fees must be submitted with the license application. Make money orders or checks payable to the Registrar of Contractors. In addition, cash, credit and debit cards are accepted in person.

A license is issued for two years and must be renewed biennially with the required renewal fees on the anniversary month of original issuance. A renewal notice will be mailed to the mailing address of the applicant (licensee).

In addition to the bonds discussed in Section 2 of these Instructions, A.R.S. § 32-1152(C) requires residential contractors provide an additional \$200,000 for consumer protection. This protection may be established by (a) furnishing a \$200,000 surety bond or cash deposit, or (b) paying the required assessment to participate in the Recovery Fund.

The table below shows:

- The "Application Fee" which is the non-refundable amount to process the application;
- The "License Fee" which is the amount for the license;
- The "Recovery Fund Assessment" which is the amount to participate in the recovery fund; and
- The "Total" which is the total amount from all three columns.

## Section 7: I'm Licensed, Now What? Helpful Hints to Maintain Your License

- The license is nontransferable (A.R.S. §32-1124).
- The license number shall be preceded by the acronym “ROC” and shall be posted in a conspicuous place on premises where any work is being performed and on all written bids, advertising, letterheads and any other documents used by the licensee (A.R.S. §32-1124).
- Notify the ROC within 30 days of any change in address (A.R.S. §32-1122). However, we strongly suggest you notify the ROC **immediately** of any change in address. All correspondence from the ROC will be mailed to the mailing address for all licenses held by the applicant. If a Citation is issued against your license, it will be mailed to your address of record (or mailing address). You will have 15 days from the date the Citation is mailed to file your written answer with the ROC. Failure to answer within 15 days shall be deemed an admission by the licensee of the charges made by the complainant, and the ROC may suspend or revoke the license.
  - Failure to update your mailing address (address of record) and therefore not receiving the renewal form in the mail is not a justifiable excuse for late renewal of a license.
  - Failure to update your mailing address (address of record) is not an excuse for not responding to a Citation.
- Notify the ROC within 30 days of any change in officers, directors, managers or members (A.R.S. §32-1122).
- Notify the ROC immediately of any transfer of ownership of 50% or more of a Corporation or Limited Liability Company (A.R.S. §32-1151.01).
- The license must have a bond in full force and effect at all times (A.R.S. §32-1152).
- License renewal is every 2 years. Make sure the 2 page renewal application is completed and all questions have been answered (A.R.S. §32-1123.01).
- Maintain your Arizona Department of Revenue Transaction Privilege Tax (TPT) number; you must provide this at the time of renewal (A.R.S. §42-2003).
- Keep your Corporation or LLC in Good Standing with the Arizona Corporation Commission.
- Check the Registrar of Contractor's website often to verify your license is in good standing. The ROC does not notify you of the following Administrative Suspensions:
  - Lack of Bond
  - Lack of Qualifying Party
  - Non-Renewal
  - Corporate Status

## PROJECT/EXPERIENCE VERIFICATION INSTRUCTIONS

**A.R.S. § 32-1122(F)** requires a qualifying party have a minimum number of years' experience with the type of construction performed by the license for which the applicant is applying. The registrar may waive the work experience documentation if the qualifying party is currently, or has previously been, a qualifying party for the applicable license classification within the preceding five years.

The ROC verifies experience by applicants submitting documentation of (a) project experience, and (b) employment experience.

### **General Information**

- Providing proof of adequate experience ensures a timely review of the application. Inadequate project or experience verifications may result in the ROC being unable to confirm the required experience, and a delay of your license application until the required information is received.
- Family members should not be used as verifiers.
- The qualifying party's portion of the verification forms should be completed prior to sending the forms to individuals providing verification.
- Forms should not be altered after the verification is completed. Modified forms may be rejected.
- The ROC may contact individuals verifying the experience.
- A separate form should be submitted for each project and for each person verifying experience. Additional forms are available on the ROC website at [http://www.azroc.gov/1\\_Forms.html](http://www.azroc.gov/1_Forms.html).
- Type or print legibly in black or blue ink.

### **Instructions**

Refer to the License Classification Requirements for the number of projects and number of years' experience required for each license classification.

#### **Project Verifications**

- Complete and submit the number of Project Verification Forms required for the license classification being sought (please provide the new and/or maintenance projects noted).
- The projects submitted should span the number of years of the experience required for the license classification being sought.

#### **Experience Verifications**

- Complete and submit Experience Verification Forms spanning the number of years of the experience required for the license classification being sought.
- Provide proof of employment history (e.g. copies of W-2's, 1099s, I-9s, K-9s, R2d2s, etc.).
- Technical training, diplomas and/or certifications may be submitted to substantiate experience.

Project and Experience Verification Forms for applicants applying for General Contracting license classifications should demonstrate experience for the full scope of the license (including construction that the general contractor can perform or subcontract to a licensed specialty contractor).

## APPLICATION TO WAIVE A TRADE EXAM

### **Instructions:**

Passing a trade exam is one of the requirements necessary to be approved for a contractor's license. A trade exam helps the ROC assess whether an applicant has the knowledge required to perform the type of work authorized by a license. However, pursuant to R4-9-106(D) the Registrar may decide to waive the trade exam requirement under specific circumstances.

**R4-9-106(D):** "*...the Registrar may decide a trade exam is not required where the qualifying party has been the qualifying party within the preceding five years for a license in good standing in the same classification in this state, or a classification the Registrar deems comparable in another state.*"

### **To be eligible to waive the trade exam:**

- The applicant/qualifier shall have taken and passed an equivalent trade exam that led to the approval of a contractor's license.
- The contractor's license must have been active and in good standing within the preceding five years.
- The exam content and the license classification must be equivalent to the Arizona exam and license for which the exam waiver is being requested.

*\* The Business Management exam cannot be waived because it has reference to Arizona specific statutes and rules.*

*\*\* The ROC cannot waive the Arizona Department of Water Resources Trade Examination required for the A-4, A-16, C-53, R-53 and CR-53 license classifications.*

### **To request waiver of the trade exam each of the following must be submitted with the application:**

- A description of the scope of license classification from the jurisdiction where the trade exam was taken.
- Proof of the passing tests results.
  - If you can't obtain proof of the passing test results, you may substitute a completed Trade Exam Verification Form.
- A description of the exam content from the exam provider.
- Proof of the license status and history from the other jurisdiction (e.g. state, county, city).
- Sign and date the application (must be signed by the qualifying party seeking the waiver).
